

Project Initialization and Planning Phase

Date	30 June 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Define Problem Statements :

The Credit Card Approval Prediction project helps predict whether a customer's credit card application is likely to be approved based on financial and personal details. It reduces uncertainty, speeds up the approval process, and helps customers understand their eligibility.

Example (Credit Card Approval Prediction):

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
------------------------	-----------------	---------------	-----	---------	---------------------

PS-1	A salaried employee applying for a credit card.	Get my credit card approved quickly.	My income is average.	My credit score is not very high.	Worried about whether my application will be approved.
------	---	--------------------------------------	-----------------------	-----------------------------------	--
