Team Involvement in Demonstration – Credit Card Approval Prediction

This document records the active participation and responsibilities of each team member during the demonstration of the **Credit Card Approval Prediction** project. Each member contributed to presenting different aspects of the system, including the project overview, machine learning model, Flask application, user interface, prediction process, testing, and documentation. The responsibilities were distributed equally to ensure a smooth, well-coordinated, and effective project presentation, with all five members actively participating throughout the demonstration.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Shaik Shaguftha Rabbani	Team Leader	Project Introduction & Objectives	Introduced the project, explained the problem statement, objectives, and coordinated the team during the demonstration.	Active
2	Koramutla Poojitha	Backend Developer	Model Development & Flask Application	Explained the machine learning model, data preprocessing, model training, and Flask backend implementation (app.py).	Active
3	Venkatanaveena Nakka	Frontend Developer	User Interface	Demonstrated the HTML-based user interface, user input forms, and interaction between frontend and backend.	Active
4	Nandini Polu	Testing & Validation	Prediction Demo & Testing	Demonstrated the credit card approval prediction process using sample inputs and explained testing results and system accuracy.	Active
5	Polepalle Rupa Thanmai	Documentation & Deployment	Project Documentation & Future Scope	Presented project documentation, deployment process, future enhancements	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Member 1
Overall Team Coordination Rating (1-5)	5
Any issues during demo	Minor input validation issue while testing the prediction form.
How issues were resolved	The team quickly corrected the input values, refreshed the application, and successfully completed the demonstration.
